**Detail of Work Contents**

The research in this position will conduct a research on designing and prototyping an advanced networking technology. Particularly, study on the advanced networking will be the development of network virtualization and edge computing and the effective integration of AI/ML for low latency, reliable, robust, and safer communications. Developing simulator and/or prototype implementations to evaluate the proposals is included as well as presenting concrete network services.

The Article 15(2) of the Act on the activation of Science, Technology and Innovation will be applied to this work content.

**Application requirement**

* Ph.D. or equivalent career is required.
* Applicant should have experience in research on network protocols/services and should have published at least 3 refereed papers in journal or international conferences or workshops as a principal author.
* Knowledge on AI/ML, virtual network, edge computing, or information-centric networking is preferred.
* Applicant should be able to conduct the research with a broad knowledge and interests not only in own particular field but the entire network area. A way of thinking based on design principles but free from the existing technologies is required.
* Applicant should have sufficient ability to read/write/speak Japanese language for technical discussions.
* Ability on software development using C, C++, and Python, and/or simulator development such as ns-3 and MATLAB is required.

**Recruiting (Number of people)**

1

**Contract period**

hiring date ～ March 31, 2024
N.B. Contract could be renewed.

**The employment period in case of fully renewing**

Up to 5 years if certain conditions are fulfilled

**Salary (basic salary)**

¥171,000 ～ ¥509,000/month

Basic salary shall be determined by taking into account each employee’s experience and task to be engaged in. However, as a basic salary is compliant with government employees’ wages, it shall be changed when a basic salary is changed after labor union and the like of NICT agreed under a revision to the government employees’ wages.

**Work Place**

Headquarters (Koganei-shi, Tokyo)

**Working frequency**

5 days/week (7.5 hours/day)

Department name and work place including work contents (research theme) and detail of work contents might change according to organizational change, etc.
