■ Job Information

Subject No.	2023R-68
Job Title	Fixed Term Researcher
Department	Radio Research Institute / Radio Propagation Research Center, Remote Sensing Laboratory
Work Contents (Research theme)	R&D on cloud and precipitation observation from satellites and their calibration and verification on the ground
Detail of Work Contents	For the cloud observation radar EarthCARE/CPR, which is about to be launched, R&D related to post-launch ground calibration/verification and algorithm development will be conducted. The next precipitation observation satellite mission will be also considered. Employees to be hired through this recruitment may apply for external competitive research fundings such as Grant-in-Aid for Scientific Research (KAKENHI) and NICT's internal research fundings.
	Innovation will be applied to this work content.
Application requirement	1. The position requires knowledge and R&D experience on satellite remote sensing. In particular, the R&D experience on spaceborne cloud/precipitation observation technology and its ground calibration/verification is desired. 2. Applicant must be able to proceed with research while maintaining smooth communication and collaboration with researchers inside/outside our laboratory (including overseas).
Recruiting (Number of people)	1
Contract period	hiring date \sim March 31,2024 N.B. Contract could be renewed.
The employment period in case of fully renewing	Up to 5years if certain conditions are fulfilled
	¥471,000 ~ ¥509,000/month
Salary (basic salary)	Basic salary shall be determined by taking into account each employee's experience and task to be engaged in. However, as a basic salary is compliant with government employees' wages, it shall be changed when a basic salary is changed after labor union and the like of NICT agreed under a revision to the government employees' wages.
Work Place	Headquarters (Koganei-shi, Tokyo)
Working frequency	5days/week (7.5hours/day)

Department name and work place including work contents (research theme) and detail of work contents might change according to organizational change, etc.
