■ Job Information

■ Job Information Subject No.	2025R-101
Job Title	Fixed Term Researcher
Department	Advanced ICT Research Institute / Center for Information and Neural Networks, Brain Networks and Communication Laboratory
Work Contents (Research theme)	Development of BMI systems and application for Brain information engineering
Detail of Work Contents	The aim of this project is to develop a BMI (Brain-Machine Interface) system and to study its application to brain information engineering. For this aim, the project includes improvements of the element units of the BMI system which is under development in NICT, system integrations, and application study to brain information engineering.
	The Article 15(2) of the Act on the activation of Science, Technology and Innovation will be applied to this work content.
	Employees to be hired through this recruitment may apply for external competitive research fundings such as Grant-in-Aid for Scientific Research (KAKENHI) and NICT's internal research fundings.
Application requirement	The applicant should have a special knowledge and research experience of development of systems which utilize neural signals such as electrocorticogram or motor control or electrical physiology.
Recruiting (Number of people)	1
Contract period	hiring date ~ March 31,2026 N.B. Contract will not be renewed.
	¥484,000 ~ ¥516,000/month
Salary (basic salary)	Basic salary shall be determined by taking into account each employee's experience and task to be engaged in. However, as a basic salary is compliant with government employees' wages, it shall be changed when a basic salary is changed after labor union and the like of NICT agreed under a revision to the government employees' wages.
Work Place	Center for Information and Neural Networks (Suita-shi,Osaka)
Working frequency	5days/week (7.5hours/day)

^{*}Department name and work place including work contents (research theme) and detail of work contents might change according to organizational change, etc.

^{*}Scope of change in work and workplace : No changes are expected in general.
