

■ Job Information

Subject No.	2025R-113
Job Title	Fixed Term Researcher
Department	Advanced ICT Research Institute / Center for Information and Neural Networks, Neural Information Engineering Laboratory
Work Contents (Research theme)	Elucidation of the neural bases of human creativity and emergence
Detail of Work Contents	The human brain possesses creativity and emergence, and thanks to these capabilities, human culture and civilization have developed. However, there is minimal insight into when and how creativity and emergence occur. In this study, we aim to develop objective experimental tasks related to the creativity and emergence of the human brain and seek to elucidate the neural foundations of creativity and emergence through non-invasive brain activity measurements during task performance. The Article 15(2) of the Act on the activation of Science, Technology and Innovation will be applied to this work content.
	Employees to be hired through this recruitment may apply for external competitive research fundings such as Grant-in-Aid for Scientific Research (KAKENHI) and NICT' s internal research fundings.
Application requirement	Holding a PhD in fields such as Information Engineering, Linguistics, Neuroscience, etc. Having experience and a track record in programming with PyTorch related to the learning of artificial neural circuits like the Transformer. It is desirable to have research experience in natural language processing and human higher-order brain functions. Possessing outstanding achievements in international conferences and journals related to these fields, and capable of performing tasks individually and as a team, with excellent abilities in communication and presentation. Able to communicate smoothly in English.
Recruiting (Number of people)	1
Contract period	hiring date ~ March 31,2026 N.B. Contract will not be renewed.
Salary (basic salary)	¥419,000 ~ ¥484,000/month Basic salary shall be determined by taking into account each employee's experience and task to be engaged in. However, as a basic salary is compliant with government employees' wages, it shall be changed when a basic salary is changed after labor union and the like of NICT agreed under a revision to the government employees' wages.
Work Place	Center for Information and Neural Networks (Suita-shi,Osaka)
Working frequency	5days/week (7.5hours/day)

*Department name and work place including work contents (research theme) and detail of work contents might change according to organizational change, etc.

*Scope of change in work and workplace : No changes are expected in general.
