## ■ Job Information

■ Job Information	
Subject No.	2026R-124
Job Title	Fixed Term Researcher
Department	Network Research Institute / Wireless Networks Research Center, Wireless Systems Laboratory
Work Contents (Research theme)	R&D on MAC and higher layers for control, adaptation, and high-reliability in next-generation wireless networks
Detail of Work Contents	Conduct R&D on MAC and higher layers for control, adaptation, and high-reliability in next-generation wireless networks. Based on novel concepts such as the use of AI/ML, design and evaluate new control and management methods and network adaptation technologies, such as radio resource control, area management, and traffic control. Publish the results as peer-reviewed papers for international conferences and journals and contribute to standardization where necessary.  The Article 15(2) of the Act on the activation of Science, Technology and
	Innovation will be applied to this work content.
	Employees to be hired through this recruitment may apply for external competitive research fundings such as Grant-in-Aid for Scientific Research (KAKENHI) and NICT's internal research fundings.
Application requirement	1) Applicants must have research experience in the MAC layer, or higher layers related to wireless network control, adaptation, and high reliability, and must have paper(s) accepted in peer-reviewed journals published by IEICE or IEEE. Also, applicants must have paper(s) accepted at major conferences specified by IEEE or relevant societies.  2) Applicants should have experience contributing to international standardization bodies such as 3GPP and/or IEEE in the area of wireless network control, adaptation, and high reliability related to the MAC layer, or higher layers. This is desirable but not required.  3) PhD or equivalent experience in research.
Recruiting (Number of people)	2
Contract period	hiring date ~ March 31,2027 N.B. Contract could be renewed.
The employment period in case of fully renewing	Up to 5 years if certain conditions are fulfilled
Salary (basic salary)	\$\frac{\pmath{\text{\pmath}}}}}}}}}}}}}}}}}}}}}}}}}}}}}}}}}}}}
Work Place	Wireless Networks Research Center (Yokosuka-shi, Kanagawa)
Working frequency	5days/week (7.5hours/day)
