■ Job Information

Recruiting (Number of people) Contract period hirring date ~ March 31,2027 N.B. Contract could be renewed. The employment period in case of fully renewing Vp to 5 years if certain conditions are fulfilled Falary (basic salary) Basic salary shall be determined by taking into account each employee's experience and task to be engaged in. However, as a basic salary is compliant with government employees' wages, it shall be changed when a basic salary is changed after labor union and the like of NICT agreed under a revision to the government employees' wages. Work Place Headquarters (Koganei-shi, Tokyo) Working frequency 5days/week (7.5hours/day)	■ Job Information	
Open Innovation Promotion Headquarters, Social Innovation Unit / ICT Testbed Research and Development Promotion Center, ICT Testbed Research and Development Promotion Center, ICT Testbed Research and Development and Operations Laboratory Work Contents (Research theme)		
Testbed Research and Development Promotion Center, ICT Testbed Research, Development and Operations Laboratory R&D for building integrated communication and computing environments	Job Title	Fixed Term Researcher
NICT is developing technologies to create a testhed where diverse entities can conduct R&D and users can verify outcomes, thereby advancing Beyond 5G/6G technologies. This research will develop technologies for building a shared, collaborative evaluation environment that integrates communication and computing based on an in-network computing architecture. This call seeks a researcher to study technologies that efficiently integrate into networks various capabilities leveraging the latest communication technologies, accelerators, and edge AI, including high-precision in-network measurement functions, in-network processing and analysis functions, routing control functions, and new security-by-design protocols. The Article 15(2) of the Act on the activation of Science, Technology and Innovation will be applied to this work content. Employees to be hired through this recruitment may apply for external competitive research fundings such as Grant-in-Aid for Scientific Research (MAENHI) and NICT's internal research fundings. - Doctorate degree holder (including those expected to obtain) or equivalent qualifications - Skills and experience in building environments using actual networks internal research fundings. - Interest in network construction technology, emulation technology, and in-network computing technology, with a track record of writing and presenting academic papers in information and communication science, informatics, or related fields. Particularly desirable are candidates with research experience in Beyond 5G/6G related technologies and enthusiasm for utilizing AI and other technologies. Recruiting Rumber of people) The employment period in case of fully renewing V515,000 ~ V534,000/month Basic salary shall be determined by taking into account each employee's experience and task to be engaged in.
