

■ Job Information

Subject No.	2026R-20
Job Title	Fixed Term Researcher
Department	Radio Research Institute / Electromagnetic Standards Research Center, Electromagnetic Compatibility Laboratory
Work Contents (Research theme)	Research and Development on the Acquisition, Accumulation, and Utilization of Radio Wave Exposure Level Monitoring Data (1)
Detail of Work Contents	By comprehensively clarifying the radio wave environment in daily life, including 5G and IoT, this research aims to deepen the understanding of actual human exposure based on quantitative evidence, and to present an approach to risk communication that enables appropriate explanation and dialogue regarding potential risks associated with the development and expansion of radio wave utilization. In addition, the survey results will be applied to exposure assessment for epidemiological studies. This project also involves the management and operation of research and development activities, the guidance of project members, and engagement in international standardization activities. The Article 15(2) of the Act on the activation of Science, Technology and Innovation will be applied to this work content.
	Employees to be hired through this recruitment may apply for external competitive research fundings such as Grant-in-Aid for Scientific Research (KAKENHI) and NICT' s internal research fundings.
Application requirement	The applicant should: • Hold a doctoral degree (Ph.D.) or possess qualifications and research capabilities equivalent to those of a Ph.D. holder. • Have a strong interest in this research project, possess advanced expertise in electromagnetics or radio-wave measurement, demonstrate sufficient research or professional experience, and have a proven record of supervising students at the graduate level. • Have substantial experience in project management or coordination. • Have held a responsible position in international standardization activities. • Be capable of presenting research results in both Japanese and English.
Recruiting (Number of people)	1
Contract period	hiring date ~ March 31,2027 N.B. Contract could be renewed.
The employment period in case of fully renewing	Up to 5 years if certain conditions are fulfilled
Salary (basic salary)	¥652, 000 ~ ¥709, 000/month Basic salary shall be determined by taking into account each employee's experience and task to be engaged in. However, as a basic salary is compliant with government employees' wages, it shall be changed when a basic salary is changed after labor union and the like of NICT agreed under a revision to the government employees' wages.
Work Place	Headquarters (Koganei-shi, Tokyo)
Working frequency	5days/week (7.5hours/day)

* Scope of change in work and workplace : No changes are expected in general
