Conference: **9-12 October 2012**

CALL FOR PAPERS

<http://icsos2012.nict.go.jp/>

- **SCOPE**

The scope of ICSOS covers technologies, procedures and algorithms that relate to free-space optical systems, with emphasis on laser communications. The domain of the applications includes terrestrial, near-Earth and deep space (planetary). Areas of interest include components, subsystems, systems (flight and ground), devices, applications, laboratory and field demonstrations, algorithms, link models, signaling techniques and concept of operations.

ICSOS2012 will be co-organized with International Conference on Space Optics (ICSO). ICSOS/ICSO joint session(s) on optical communications will be also held.

- **ABSTRACT SUBMISSION**

Submission of an abstract with approx. 300 words will be accepted electronically on the web page of ICSOS2012 (<http://icsos2012.nict.go.jp/>). The deadline for receipt of abstracts via electronic submission is 15 March 2012.

- **VENUE**

Congress and Exhibition Center of Ajaccio: Ajaccio is located on the west coast of the island of Corsica in the Mediterranean Sea, France. It is a place of beautiful geographical harmony composed of coastal foreland and mountainous hinterland and historically well known as the birthplace of Napoleon Bonaparte.
